### General Conditions of Permit:

1. Permittee shall provide proposed adequate traffic control in accordance with the manual of uniform traffic control at all times (including flagmen, lighted barricades, warning signs, and associated safety equipment), and shall provide temporary erosion control, street sweeping, storm runoff control, drainage and temporary utility service as conditions warrant. All waste material shall be disposed of at an approved facility, no fuel, toxic materials, or cement shall be discharged onto the ground or into any drain.
2. One traffic lane shall be open to traffic at all times. Maintain access for public safety and pedestrians at all times. All lane closures shall require submission and approval of a traffic control plan. Notify town engineer and public safety 24 hours prior to start of work (425.455.1834).
3. Prior to any excavation, notify all utility companies (public and private) and obtain utility locates in accordance with state law.
4. All work and materials must be in accordance with the WSDOT/APWA standard specifications for road, bridge, and municipal constructions and standard plans as approved by the town engineer.
5. All excavation, backfilling, roadway restoration shall be accomplished subject to inspection and approval of the town engineer. The town engineer may require that special inspection and testing be accomplished at the expense of the permittee.
6. **The permit is temporary and is valid for thirty (30) days**, is revocable, and vests no permanent rights whatsoever. Future public improvements may modify, alter, remove said work or improvements at any time and all costs therefore shall be at the expense of the owner. All work under this permit shall be warranted for a period of one year from the date of completion. All subsequent repairs shall be expeditiously accomplished following notification by the town engineer.
